

# Don't Get Stressed

Futuristic

Yeah, look  
I don't get stressed, get started  
Aiming my target, till the day I'm in a coffin  
I work harder, then anybody that get brought up  
But its time to work smarter, but gets overwhelming  
With the pressure I hold, the weight that I carry is burying most  
The haters is scary, prepared for my fold  
I need to keep pumping some air in my soul  
My errands is double dogged dead to these amateur's  
I'd rather do this off a camera  
But if it ain't filmed, then I can't change the world  
So I'm here with a light and a stand and stuff  
Some people don't understand and stuff  
Had a hand in these upcoming brands  
Got cut out of the deal because my morals are standing up  
I don't want anything that they handing us, no (I don't want that)  
If it come easy, it ain't worth having  
If it comes slowly, its gon last longer  
This ain't a challenge, I'm building my habits  
Peeling my cabbage, cutting my baggage  
I got stabbed but it felt like a back itch  
Ya'll more worried about bagging a bad chick  
Then checking in early for the total package  
I see where you lacking, I won't do the same  
[?] remains on a whole different plane  
This is the way that I'm feeding my sons  
Please don't mistake what I do as a game  
Forget all the fame, its easy to get it, I did it  
But harder to really maintain  
Clearing my plate of the food they consuming  
Ain't following trends, I'm paving the way

I don't get stressed, I get started  
I work hard, but I can work harder  
I don't get stressed, I get started  
I work hard, but I can work smarter

Don't get stressed, get started (started)  
Don't get stressed, get started (started)
