

## Dreaming2

Futuristic

Niggas can't stop my team from eating  
Niggas tryna roll up on you, creeping  
Niggas can't stop the kid from breathing  
Niggas can't stop the kid from dreaming  
Hard time streets, that's where I'm from  
Dark vibe streets, that's where I'm from  
Hard knock life, that's where I'm from  
Cold nights, guns, that's where I'm from, I'm from

Yo

Long days, cold nights since the start of it  
Rappin' in the start of it, blowin' Nintendo cartridges (Yeah)  
Knew that I was destined for greatness back in my momma crib (Yeah)  
She moved me to the block when niggas shot at me, I'm off of it  
Yo, this takes dedication, ain't have no reservations  
Addicted to this life, anxiety from separation  
I keep the fakes away, from snakes I need my segregation  
Nice nigga, but I throw the hands without no hesitation  
This shit is different now, I'm livin' how I used to dream it  
Wake up on a yacht next to my ladies, what I'm used to seein'  
The king of things is what I'm used to bein'  
Used to be at bus stops, now I'm in the whip that's black and European  
Took the team to Europe, Tulum, Jamaica then out to Egypt  
Than Australia for some shows, I had to run the fee up  
Made some tea so they could feel the same as me, I had to re-up  
Celebrate, we pop champagne on the plane where I lay my feet up  
This shit is crazy, lookin' back at my beginnings (True)  
Through the failures and the losses I always came out the winner (Big facts)  
They can't stop me, I was built to make a difference  
I was dreamin', now I live it and I did it independent, come on

Niggas can't stop my team from eating  
Niggas tryna roll up on you, creeping  
Niggas can't stop the kid from breathing  
Niggas can't stop the kid from dreaming  
Hard times streets, that's where I'm from  
Dark vibes streets, that's where I'm from  
Hard knock life, that's where I'm from  
Cold nights, guns, that's where I'm from, I'm from

Don't say you love me baby, that shit make me anxious  
'Cause every time it felt like love, that's when they left me hangin'  
You know that pain feel different if you don't deal with it  
And disappointment feel worse if you don't heal first  
I'm still fightin' for my dream, I hope it still work  
Ready to fight off anything because I'm still hurt  
I'm from a city where your neighborhood the real church  
Stop your life before it start just like a still birth  
A chill Earth, cold world but I still smirk  
Won't take my smile, been on trial for a long while  
Ain't committin' crimes, I'm just guilty of a different mind  
No finish line, full speed 'til I get to shine (Yeah)  
The picture ain't fully painted, I just hit my prime  
The world is sick of us complainin' but we sick of dyin'  
We don't have no dads around so what we learnin' from  
My pops left when I was young, I had to get it done  
She keep sayin' I'm the one but we just havin' fun

Love don't come with no insurance so I hit and run  
The bullets kill you where I'm from, I had to get a gun  
I kept believin' and kept dreamin', now let's have a run

Niggas can't stop my team from eating  
Niggas tryna roll up on you, creeping  
Niggas can't stop the kid from breathing  
Niggas can't stop the kid from dreaming  
Hard times streets, that's where I'm from  
Dark vibes streets, that's where I'm from  
Hard knock life, that's where I'm from  
Cold nights, guns, that's where I'm from, I'm from

Yeah, hey  
And I gotta own the things I rap about just for my pride  
Every morning when I ride, just a challenger outside  
Shit, making mimes, don't know why you never try it  
Pocket watchin' from the side, you'd be better off just dyin'  
Right now I feel so alive, ain't no ladder we was climbin' to the top  
We took no [?] stay persistent and do time  
Studied every rhyme, tryna catch me in a lie  
I was studyin' the game, knowledge got me on a rise  
Look my baby in her eyes, can't believe I gave you life  
And I put that on the 9, I'll do anything for [?]  
I see all these niggas trife, show they colors, UV light  
And it's colder still at night, they ain't too happy I survived, yeah

Niggas can't stop my team from leading  
Niggas tryna roll up on you, creeping  
Niggas can't stop the kid from breathing  
Niggas can't stop the kid from dreaming  
Hard times streets, that's where I'm from  
Dark vibes streets that's where I'm from  
Hard knock life, that's where I'm from  
Cold nights gone, that's where I'm from, I'm from

Where I'm from, I'm from  
Where I'm from, I'm from
