

Escape

Futuristic

I mean you're cool and all
I got a pool and all
With a view and a tube, so you can't flow throu it all
You know who to call when you're tired of dodo balls
But do you know all girls in your element playin' stupid songs
You momma fussin', 'bout what your brother doin'
Your sister trippin', say she need you 'cause she goin' throu it
And you just wants someone that don't try to control your movements
When you want [?] you always know that I'm open to it, yeah
And I be your escape plan
Your sun dress and your Ray-Ban
Your spray tan [?], washing off that grey sand
Your pray hands
Your flip flops and your waist band
Your red wine and your pizza cooking
You binge watching that [?] land
Head ass, rappin' propably [?]
Flex cash, whatever you like, dead ass
If is no, we can go and [?] ass, relax
I ain't tryna be your man and honestly that sounds fair

But I, only much from you
I know you got stuff to do
But I, I did it from the jump with you
I got [?] and stuff for you
But I, I take all out the way that you want
It's okay to let it go today
But I, be your escape
But I, be your escape

I'm your plan B
Even know I don't condone that shit
You took a chance, girl you know that risk, uh
Timex on, yeah you know that wrist
While I'm grippin' on your booty and you hold that eeh okay
Laundered with my mostest conversation drift
And you don't smoke unless I roll it, then you take a hit
And you don't never know the chorus when them bangers hit
I find that kinda crazy but interesting when we take a lift
Out to dinner, in the club, then a after party
Rappin' shawty dancin' on me
I'm moving, they acting naughty
You laughing hardly, I get it, sometimes I act to Tory
Playin' games, only for a second then I'm back and sorry
Like Bieber let me treat ya, you the baddest barbie
I'm rappin' you dressin' sharply, you ride me just like a Harley
Your safari is your personality, bubbles like it's sparklin'
I'm catchin' you hardly is honestly how I'm feelin'

But I, only much from you
I know you got stuff to do
But I, I did it from the jump with you
I got [?] and stuff for you
But I, I take all out the way that you want
It's okay to let it go today
But I, be your escape
But I, be your escape
