

EVERYTHING IS UP

Futuristic

I put it down for the ones that I love
Put it down for the ones that I trust
Put it down for the man up above
Stayed down now everything is up

Everything is up
Everything is up
Everything is up
Everything is up

Everything is outta here
Everything is good
Everything is goin like I knew it always would
I jus took a moment to reflect on where I been
Look who I became when they said I never could
Easy to be focused but it's hard to do it right
Easy to be Scottie when u know u got a mike
Easy to be Kobe when u know u got a Shaq
I jus keep on goin always glowin from the light
This a light beam from a rhyme scheme
They could never draft
And I rock prolly coulda signed a deal wit epitaph
Second guessed the big man, said he gotta better path
Live it out now all of my goals put on a pantograph
Scale it up
Miracles I'm watchin em in real time
Called my A&R & he said dog let's get the deal signed
Worked to get it then I'm wit my kids when it's meal time
Then I'm wit my shorty yea she holy & she real fine

I put it down for the ones that I love
Put it down for the ones that I trust
Put it down for the man up above
Stayed down now everything is up

Everything is up
Everything is up
Everything is up
Everything is up

Lemme backtrack
Manifested fame then I grabbed that
Coined internet rap
Did it before a hashtag
Based what I'm worth off PayPal & cashapp
Bad habits had me Runnin in circles like lab rats
Treated women jus like shoes had em in twos
Treated liquor like water had it more than my food
Treated money like It was God I answered too
Then I used my platform projected it all on you
I can't do what I used to do homie that's insanity
Came down humble now I threw away my vanity
Prayers said dog I had to give up my profanity
If u mad at me that's weird u should be glad for me
Go back to my old ways blasphemy
Grow wit me if u really wit it put this on blast for me
The endin times here go to hell that'd be a tragedy

No limits for the spirit this master P a masterpiece u know I had to

Put it down for the ones that I love
Put it down for the ones that I trust
Put it down for the man up above
Stayed down now everything is up

Everything is up
Everything is up
Everything is up
Everything is up
