

FINALLY FOUND

Futuristic

I'm finally found
He was there for the whole time
He was always by my side
I'm finally found
He was there for the whole time
Not a doubt in my mind
I'm finally found
He paved the lane
I made mistakes
He gave me grace and forgave me
He guides the way
I found my place
And now I'm safe cuz he saved me

Yea runnin' wild since a child
I would look up in the clouds
Know he's there but I don't feel him workin'
Ok, I started out wit the doubts
Then gave in but the people at the church
Man they made me nervous
Everything done in the dark
Gon' come around that curtain
20 years I pushed em off
But he felt me searchin'
Everything that had me lost
Lead me to my purpose
Know that this is just the start
I'm a different person
Not a doubt
I can't waiver
Everyday I thank my God lord and savior
Keep him close to the skin like a taper
I'm livin' in his image one day Imma be his neighbor
I can't stress and I can't worry cuz I'm finally found
Let go of worldly cravings know that I'm no longer bound
Moral of the story morals comin' through the sound
All my people in the crowd loud say

I'm finally found
He was there for the whole time
He was always by my side
I'm finally found
He was there for the whole time
Not a doubt in my mind
I'm finally found
He paved the lane
I made mistakes
He gave me grace and forgave me
He guides the way
I found my place
And now I'm safe cuz he saved me

What I look like dissin' em
Gettin' signs everyday but steadily dismissing em
Chills down my body when I pray Imma stick wit em
Even when it's bad there's reason lemme listen up
Know the road ain't gone sunshine and rainbows

Devils be around but Imma give em a halo
Gained faith changed ways quicker than people change clothes
Stay still then be a soldier because he say so
I gotta give Grace to mistakes
Stop judgin' and livin' in his way through his tastes
Display the growth through the vocals on mixtapes
For the kids sake I hope this help em get in shape
For those who say that I spit lame that's insane
Them claims come from the sick place I been saved
I don't worship money, cars, clothes, chicks, fame, murder, poison I disdain

I'm finally found
He was there for the whole time
He was always by my side
I'm finally found
He was there for the whole time
Not a doubt in my mind
I'm finally found
He paved the lane
I made mistakes
He gave me grace and forgave me
He guides the way
I found my place
And now I'm safe cuz he saved me
