

Forget That It's Over

Futuristic

I been in the crib alone
Know I shouldn't hit yo' phone
I been thinkin' about it all day
Don't give me the busy tone
I know that you miss me so
We should see each other, ok?
We could never make it work
I know that you wear my shirt
Everytime you lay down in yo' bed
You kept it for the memories
This gon' be the end of me
You should come and finish me (yeah)

Cause yo' nigga is gone
An my chick ain't home
I got space for you (you)
An my friends was wrong
An yo' friends was wrong
We both crazy too (too)
We don't gotta talk if you don't want to talk (nah)
We ain't gotta bring up all that old shit (shit)
We don't gotta kiss if you don't wanna kiss
But you gonna wake up with me in the morning

Sometimes I forget that it's over
Pour me up a cup and I make it strong
Never get along when we sober
Drinking then we fuck till the pain is gone
Sometimes I forget that it's over
Pour me up a cup and I make it strong
Never get along when we sober
Drinking then we fuck till the pain is gone

Drink, fuck, drink, fuck, drink, fuck, drink, all we do is
Drink, fuck, drink, fuck, drink, fuck, drink

Scrollin' through yo' Instagram
Used to be your biggest fan 'til you went and changed all of your ways
Desperate for attention
So you gone bring some nigga home
Who don't even know your damn name
Taking it for what it was
Drinking till I got a buzz
Now I'm steady blowing up yo' line (yo' line)
We both know we never should
But we knew we never could
I bet it won't be the last time

Cause yo' nigga is gone
An my chick ain't home
I got space for you (you)
An my friends was wrong
An your friends was wrong
We both crazy too (too)
We don't gotta talk if you don't want to talk (nah)
We ain't gotta bring up all that old shit (shit)
We don't gotta kiss if you don't wanna kiss

But you gonna wake up with me in the morning

Sometimes I forget that it's over
Pour me up a cup and I make it strong
Never get along when we sober
Drinking then we fuck till the pain is gone
Sometimes I forget that it's over
Pour me up a cup and I make it strong
Never get along when we sober

Drink, fuck, drink, fuck, drink, fuck, drink, all we do is
Drink, fuck, drink, fuck, drink, fuck, drink, all we do is
