

Highs & Lows

Futuristic

The highs & lows
It's all we know
The ups & downs
The back & forth
The turnarounds
The climb the fall
Is all apart of
Who we are

When it's my time to die
I'll go out on a high
They'll remember my name
The legend will survive
Maybe when I go
It'll all be worth the lows
When it's my time to die
I'll go out on a high

I been chasin' highs
To balance out my lows
Ain't nothin in this world
I haven't felt before
A lot of things I prolly
Never get to know
But every day's another
Chance I get to grow

Look, really ain't no
Losses only lessons
Every highs another blessing
Every breath & every second
Every message I'm projectin'
To the ones that's been neglected
Don't let demons intercept it
We levitate up to heaven like

When it's my time to die
I'll go out on a high
They'll remember my name
The legend will survive
Maybe when I go
It'll all be worth the lows
When it's my time to die
I'll go out on a high
When it's my time to die
I'll go out on a high

They'll remember my name
The legend will survive
The highs & lows
It's all we know
The ups & downs
The back & forth
The turnarounds
The climb the fall
Is all apart of who we are

When it's my time to die
I'll go out on a high
They'll remember my name
The legend will survive
Maybe when I go
It'll all be worth the lows
When it's my time to die
I'll go out on a high
