Tell me why you can't get out my business  
This ain't no game nah this is not no scrimmage

Say I done it, say I won it, know I'm always gon keep it a hundred

Everything is going smooth like maybe this is make believe  
Oh yeah, I did it, I did it  
Got these diamonds on me dancing now I'm gripping up in it  
And I'm still independent made a few mill off the written's  
And now I get the game that got me here and help with the winning, yeah  
I promise nothing was given it's dedication  
Mixed with hard work and lots of preparation  
And there's levels to this shit need separation  
If you need the blueprint, this the demonstration yeah
