

I GET MAD TOO

Futuristic

Yo!

I get mad too, I get mad too
I get mad too, I get mad too
I get mad too, I get mad too
I get mad too, aye, tell 'em

I get mad too, I get mad too
I get mad too, I get mad too
I get mad too, I get mad too
I get mad too, I get mad too (yo)

I get mad too, I wanna blast you
I'm flippin' the table, I'm breakin' the cable, I'm known to snap too
I thought about drive-bys
Hmm, like fast food
Already thought of my alibi, I was at school

I harness the hurt and I put it to work (aye)
Forgave all my enemies, put them in dirt
Dead to me, wasn't just about a girl
I might as well put 20 names on a shirt

Harness the pain and I turn it to grind
Don't train the body and not train the mind
Harness the doubt and I turn it to motive
On tracks, I'm a locomotive in my prime

I turn the spoil to the oil, plantin' the seeds
And now I'm livin' off the soil
You got me hot, I turn the words into pot
Now I'm about to make it boil

None of my plans will ever be foiled
I've been a man, I'm lettin' them know
Emotions is out in the open, it's healthy, we have them
But I got them under control

'Cause I get mad too, I get mad too
I get mad too, I get mad too
I get mad too, I get mad too
I get mad too, I get mad too

I get mad too, I get mad too
I get mad too, I get mad too
I get mad too, I get mad too (aye)
I get mad too, I get mad too
