

## If I Would've Known

Futuristic

I know I was lost, we did it all  
I tried to throw it all away  
If I would've saw everything that you offered  
I would've go the other way

You knew right away  
I was gonna always be that one, put my pride away  
I know I didn't need no one, you knew right away  
I was gonna always be that one, put my pride away  
If I would've known (if I know what it feels like)  
If I would've known (if I know what it feels like)  
If I would've known (if I know what it feels like)  
If I would've known (if I know what it feels like)  
I wanted your body, you gave me more  
Didn't think I were falling, cause I want control  
You got me started, I didn't know  
We were in there together, [?]

Yeah, I was thinking homie don't go  
From the jump I was always in it solo, okay  
Having a lady was a no go  
I was out there acting crazy on the road tho, okay  
You was there had to wait for me, patiently  
You always had a place for me  
I didn't know I was filling up a vacancy  
And all my real life it feels like a make believe  
Got a baby on the way, got a crib, got the ring and a safe, yeah  
Now I make you feel safe  
[?] and go both ways  
I was independent and on my ways  
Now I got the lean and your homie in place  
If you gon' fall, then fall on my face  
Let me get a taste, wait [?] that's crazy

You knew right away  
I was gonna always be that one, put my pride away  
I know I didn't need no one, you knew right away  
I was gonna always be that one, put my pride away  
If I would've known (if I know what it feels like)  
If I would've known (if I know what it feels like)  
If I would've known (if I know what it feels like)  
If I would've known (if I know what it feels like)  
I wanted your body, you gave me more  
Didn't think I were falling, cause I want control  
You got me started, I didn't know  
We were in there together, [?]
