

Keep Goin'

Futuristic

Yeah
Turn me up
Mmm

You fell off of the wagon (wagon)
Its time to get back in (back in)
I hope this hits like Venus, Serena
Everything I do is with the backspin
Somebody run it back
Been asking for change from the people, I'm quarterbacking
Get it, change-quota back
Ima have to highlight every bar on the caption, wrote this on a
napkin
Hold up, rest in peace Twitch
Sometimes happy people is the saddest
We still don't really know what happened
But that don't make none of the homies bad friends
You should check on your strong ones
Have real convos, I mean the long ones
Have good intentions, stop with the wrong ones
What was the purpose though, when its all done
Live life we all turn to sawdust, got to be more
There's gotta be something inside of the [?]
Opens we all looking for when life is a chore
Nothing is sure, we all come up short
Comparing [?], and parents apparently bury the marriage
Miscarry the carriage, prepare for divorce, I'm airing the sour
ce
I'm fed up
Damn, tough luck should have [?]
Everybody go through hiccups, nigga
Don't be bitta, get off yo Twitta
Born as a sinna, [?] forgive us
Failure risk when you give up
We got dreams to live up
Playing already been [?]
You ain't no quitta

I love you even though you don't know it
Every single day my faith keeps growing
I get down even though I don't show it
Get back up and I just keep going
I just keep going
I just keep going
I just keep going
I just keep going
