

lets heal

Futuristic

Okay

We both have a lil' trauma, uh
Know that cause a lil' drama, I
Too worried about my comma, uh
Too worried about my dollar signs
Went back on my promise, yeah
Always first to apologize
You got insecurities, uh
I run away from the problems, why?
Know it like my momma, just like my daddy
Think I know everything
You been done so dirty, you still hurting
Wishing for better days
Know I gave you hope and I said "Nope"
And you fell out astray
Wanted to give me a home, left you 'lone
So you stayed away

So I had to work for that
You had concerns with that
You called me out by name
You had some nerve for that
Held me accountable
You was the first with that
Every time you acted up
I had a verse for that

Let's heal, let's heal
Let's heal
Together
Let's heal, let's heal
Let's heal
Together
Mhm-mm, yeah
Let's heal, let's heal
Let's heal
Together
Let's heal, let's heal
Let's heal
Together
Mhm-mm, yeah (Yeah, okay)

We both have a lil' baggage, uh
Unpack mine, put it at your feet
We do a lil' unwrappin', uh
Get tangled up in between them sheets
We both need a lil' action, uh
Words only mean so much sometimes
I come through, get it crackin', uh
Know I'ma be there every time (Hey)
Holding you letting you cry, wiping your eyes
Deep in the ocean, I dive
I put my phone to the side, down for the ride
Thank you for letting me drive
I put my fears in the rear, leave it behind
Reflection of what is inside

Know that it giving me pride, ask for a sign
God said you one of a kind

So I had to work for that
You had concerns with that
You called me out by name
You had some nerve for that
Held me accountable
You was the first with that
Every time you acted up
I had a verse for that

Let's heal, let's heal
Let's heal
Together
Let's heal, let's heal
Let's heal
Together
Mhm-mm, yeah
Let's heal, let's heal
Let's heal
Together
Let's heal, let's heal
Let's heal
Together
Mhm-mm, yeah
