Another rapper dead
Callin' out for help
Fell into the lifestyle
So he didn't get shelved
I'm chillin' wit my friends
We bumpin' all his songs
Let's talk about the problem here
What y'all really on

I grew up in the culture
Lean in a cup by the sofa
Raised in the projects
So I turned that to a project
Came from the rats and the roaches
Ashin' the roaches
Wanted to 50 and Hova
Bedroom tacked up them posters
Closet full of sports teams
Names on the back of them shoulders
I impact cats when I'm flowin', listen up
Music hit me it get me it feel like medicine
It give me inspiration from places that I ain't never been
I see u wit the women I'm thinking that we could never get
U drinkin' and u smokin' and poppin' all of them sedatives
Motivation you bought a crib for all of yo relatives
I got a lil money I wonder how I could double it
I see you talkin' bout money car clothes hoes the lifestyle
That you chose is dope I fell in love wit it
Look, now I'm movin' jus like you
I be gettin' drunk in the club like you
And I even do all the drugs you do
Right before I hit the stage and make em jump like you
I got a couple models I could ... like you
People switch I never know who I can trust like you
This life gettin' crazy, I don't feel safe
So I even went and got a gun just like you
Rich know that I can beat the case
Somebody got a problem wit me say it to my face
Can't nobody stop me dog I'm in a different place
But it's gettin' lonely so I gotta numb the pain
I jus did it for fun but now I need it all to cope
Got everything I wanted but it's nothin' like I hoped
I don't got an issue dog it's all under control
Just go get me the stuff and please leave me alone
My mechanisms growin' wit the bigger that I get
The dosage gettin' stronger need more hits for every hit
Can't tell who really love me cuz they keep me on the road
Promoters drop the drugs bring the women and the sip
I'm gang affiliated my security is crips
Wit all this money in the duffle if u act funny then u clipped
I'm focused on the paper stackin' chips on top of chips
I don't need no down payment I pay cash for all the cribs
Sittin' on the balcony reflectin' on the past
Look around the mansion all the crazy stuff I have
The moments without motion my emotions always crash
Life is full of highs but none of them don't ever last
Go on IG live for validation play some songs

Package in the back somebody saw the addy drawn
He ran up in the crib for everything I worked to get
Jus woke up in the hospital barely holdin' on
