

## Lucky

Futuristic

Yeah, they say you lucky when they- uh  
Yeah, they say you lucky when they see you with the bag  
Going places they ain't been, doing things they never have  
Say it's lucky, say it's lucky when your lady hella bad  
Doing things they never could, I ain't even tryna brag  
It wasn't luck it was skill (Wasn't luck it was skill)  
It wasn't luck it was skill (Wasn't luck it was skill)  
It wasn't luck it was skill though (Wasn't luck it was skill)  
It wasn't luck it was skill (Wasn't luck it was skill)

This ain't luck my boy it's dedication  
That means hard work mixed with preparation, meditation  
Plotting on the outcome making better statements  
Every statement, I jumped in they ain't have no reservations  
Now I'm walking in, don't need no reservation, yes I'll take it  
Preservation, from hating people I need separation  
I move out of purpose, all of y'all move out of desperation  
No hesitation, I jump on a plan to every nation  
Elevation, presentation, give a quick lil demonstration  
Yo, this is how you get it, you see how I'm living  
Bout to never quit it, you think bout benefitting  
I think bout value givin', this ain't checkers boy it's chess,  
you gotta know the difference  
Listen, I can schedule out a month into a week  
Did a decade worth of work in 20 days and I ain't sleep  
Eating rappers on these beats, and building habits for these streets  
I know I'm blessed but I don't rest until its happening for me

Yeah, they say you lucky when they see you with the bag  
Going places they ain't been, doing things they never have  
Say it's lucky, say it's lucky when your lady hella bad  
Doing things they never could, I ain't even tryna brag

It wasn't luck it was skill (Wasn't luck it was skill)  
It wasn't luck it was skill though (Wasn't luck it was skill)
