Pull all my money out the safe (Safe), hop in a PJ (J), go blow a [?] in a day
Yo, you make me wanna pause and delay everything I got goin', need my cars to be safe
Seen your flaws, I'm in awe, take 'em all to the lake
You my love, you my dawg, give you all the estates

Tell all your girls they should come through, no foolin', just kickin', we c

All the haters better tune in, they love watchin' what we doin'
A couple of things I'll put you in, baby girl, I'll let you choose it
You let your guard down, baby, I promise I'll never abuse it
Give me a second to prove it, let's make a plan and then use it
