

Not Runnin' Away

Futuristic

It's too much for me
I bit off more than I can chew
Sometimes I need to help me
Before I can help you

The oxygen masks fall down
I need to grab mine first
I'm done putting myself last
Look in the mirror y'all

I'm not runnin' away
I'm not runnin' away
I'm not runnin' away
I'm not runnin' away

Look 'em in the face
I'mma need my space
For a couple days, or weeks
Don't care what you gotta say
Know I need some help
This time I'm not afraid of me

The oxygen masks fall down
I need to grab mine first
I'm done putting myself last
Look in the mirror y'all

I'm not runnin' away
I'm not runnin' away
I'm not runnin' away
I'm not runnin' away

Repeat after me...
I can fix this (I can fix this)
I am not my past (I am not my past)
I will be consistent (I will be consistent)
So this will last (So this will last)
I will love myself (I will love myself)
No matter how much I've messed up (No matter how much I've messed up)
I will do better (I will do better)
For me (For me)
And no one else (And no one else)

I'm not runnin' away
I'm not runnin' away
I'm not runnin' away
I'm not runnin' away
