

## ON FIRE

Futuristic

Stop drop On a roll  
I'm on fire  
Singing to the money like Mariah  
Devil asking what I desire  
Got it down science I'm MacGyver

Always going off like ya boy done switch  
Track athlete know the boy run this  
I don't want the lease no I wanna own this  
I'm in beast mode, know the boy don't miss

Hold up  
Y'all ain't really foolin me  
I just want the money fuck the jewelry  
Funny how they hate, now they cool with me  
Look at what the music really do to me  
Holup  
Come and rock with the best then  
I just want the stocks and investments  
I'm never with the Glocks and the techs and  
Never chase thots, I don't fuck with the textin  
Still thriftin like Macklemore  
They hear the flow and I'm killin it and they back for more  
This shit really me don't know what these rappers be actin for  
Shit what they need is platform, to rap it more  
Woah  
They misdirected as fuck  
I'm never loud on twitter got intellect in the cut  
See me drop hits get bitter and interrupt  
I'ma still rock this, with the plans runnin it up

Stop drop On a roll  
I'm on fire  
Singing to the money like Mariah  
Devil askin what desire  
Got it down science I'm MacGyver  
Always goin off like ya boy done switch  
Track athlete know the boy run this  
I don't want the lease no I wanna own this  
I'm in beast mode, know the boy don't miss

Someone tell them I'm on fire  
If you talkin lyrics then you preachin to the choir  
Look what I acquired ballin like I'm lillard  
Trailblazing maybe more like Wallace in the 90s  
Yo so technical go and get the medical  
I'm sick lines hit em half the time like an edible  
Half the time I be with a dime getting sexual  
No limit on the card homie that's incredible  
Off of the shits  
Hotter with this  
Step back swish wow  
Tell them get off of the kicks  
I'm like a kid  
Swear I be having a fit  
Look at the drip  
Everyone hit
