

SHOW YOU

Futuristic

Lemme show you wassup
Lemme show you how to fill up yo cup
Wish I woulda did this from the jump
Wish I woulda of did this but
I'm bout to show you thangz
I'm bout you show you thangz yea
This is the only way
I'm bout to show you

Lemme take you to the brighter side
Where yo existence ain't contingent on a dollar sign
Outta body & outta mind how my father fly
Know my soul ain't gone be sold on No docusign

Look, I know the gray place
It seem like a great way
You bendin the rules for yo benefit that's like erryday
Know yo sins forgivin but can't be movin the same same
And expect change my boy that sound insane sane

I Started divin into scripture & it really threw me
Started talkin to my God he already knew me
I was done wrong by people not the almighty
He don't give nothin to me rather work through me

Know I'm stepping on these stages to convert a skeptic
Know I'm givin people peace when things gettin hectic
Know I'm helpin the first step like I did my kids
I'm still growin but lemme show you this

Lemme show you wassup
Lemme show you how to fill up yo cup
Wish I woulda did this from the jump
Wish I woulda of did this but
I'm bout to show you thangz
I'm bout you show you thangz yea
This is the only way
I'm bout to show you

God got me mind blown he a topbuster
They lined up for the show like a blockbuster
Everything up
Even if my stock under
Cause I'm followin my plan, put his plot under
Ain't even gotta tell you where I was
Promethazine on the blunts I was high & lifted up
Took me a lil minute to give it up
But as soon as I did he gave me a new high with filled cup

Lemme show you wassup
Lemme show you how to fill up yo cup
Wish I woulda did this from the jump
Wish I woulda of did this but
I'm bout to show you thangz
I'm bout you show you thangz yea
This is the only way
I'm bout to show you
