

You Know

Futuristic

Yeah Yeah Yeah Yeah Yeah Yeah
Oh no oh no oh no oh no

Our eyes connect, you lose your breath
You take a step I lick my lips, I'm known to flex but you
You pulled my car, I don't know that chick
You rockin roll, you hit the floor, you roll your hips, you are

The definition of goes you the definition of woah
You the definition of everything I invisioned
I ain't looking at you, I'm looking into your soul
You the definition of wow, the dream girl that I saw as a child
You the definition of everything I am wishing
All I ever wanted was someone to stick around

When you know, you know
When you know, you know
When you know, you know
When you know, you know, you know
When you know, you know
When you know, you know
When you know, you know
When you know, you know, you know

Our body's touch, I'm not in a rush
You start to blush don't say it much but I'm in love with you
This can't be so, cause we just met
I get butterfly's everytime I read your text, you are

The definition of goes you the definition of woah
You the definition of everything I am wishing
I ain't looking at you, I'm looking into your soul
You the definition of wow, the dream girl that I saw as a child
You the definition of everything I am wishing
All I ever wanted was someone to stick around

When you know, you know
When you know, you know
When you know, you know
When you know, you know, you know
When you know, you know
When you know, you know
When you know, you know
When you know, you know, you know

When you know, you know
When you know, you know
When you know, you know
When you know, you know, you know
When you know, you know
When you know, you know
When you know, you know
When you know, you know, you know
