

You

Futuristic

You smell like trees
You, You, I can't stop thinkin' bout you

Wake up and I'm thinkin' bout, you
The only thing I wanna sing about, you
You're in my head and I can't get you out, you
I feel delusional, I'm in and out in and out

Tryna find a different route Floatin' on a different cloud
That's just how I get around
I'm turnin' off the phone
I don't wanna be alone
You're controlin' my whole life
You left me down bad Didn't know that was the plan

When I open up the gram I see I'm not your only fan
I guess that's just the way it is When you're in high demand
Left me at my lowest point Don't come around when I'm the man
I'm just sayin

You, You, I can't stop thinkin' bout you
You, You, I can't stop thinkin' bout you
Listen dog, you gotta build yourself Be good alone
If she left, she wasn't happy in that broken home
In a house of glass, I can't be out here throwin' stones

I'm shinin' light on paths that I went down when I was roaming
roads
Sometimes a light at the end of tunnels ain't what you might think
You ain't gon' find no answers at the bottom of that drink
Can't go round for round about it like a roller rink

Or just work on your mental and change the way you think, you
Put that energy in you, you
Fix all your habits, that's gon' make you new, you
Make sure that you tellin' truth If you change but she don't see your worth
You gotta be through

You, You, I can't stop thinkin' bout you
You, You, I can't stop thinkin' bout you
You, You, I can't stop thinkin' bout you You, You, I can't stop
thinkin' bout you
