

# A Thing For Me

G-Eazy

You say we never should've been  
But I disagree  
So like an apple ad I simply think differently  
And nah, I'm not lookin for your sympathy, but  
You got my heart you know  
I know last time we might've failed dismally  
We both did some shit, shady as the industry  
When we lock eyes, I know you feel it instantly  
Despite all the history, you still got a thing for me

I told you how long we got  
All the time in the world  
I've got a thing for you  
You've got a thing for me  
I've got my mind made up  
You've got my heart you know  
You've got a thing for me  
You've got a thing for

Recently I've seen my daydreams vividly  
Every time I space out in class, see the imagery of you and I together  
Starts fucking with me visibly  
Damn, that's what the fuck I get for thinking wishfully  
And lately, I've been looking for some quick relief  
Liberally, accepting Monica's but missing Hillary  
But inside this is all causing misery  
Why I ain't got you right now is a mystery

I told you how long we got  
All the time in the world  
I've got a thing for you  
You've got a thing for me  
I've got my mind made up  
You've got my heart you know  
You've got a thing for me  
You've got a thing for me

So, tellin me how you missin me?  
Or am I absent like a Jewish familys Christmas tree?  
That new dude is a phony, and he isn't me  
And I bet you he don't satisfy you physically  
But when we sex you experience a symphony  
I conduct your body and I beat it like a timpani  
For you baby, I would walk across Tennessee  
But my chances were tinier than Timothy  
But I never get to keep you, we weren't meant to be  
We're in a different key, you just wanted middle C  
I miss you love, I miss you kissin me  
We broken up and gotten back together two times, but this is trilogy

I told you how long we got  
All the time in the world  
I've got a thing for you  
You've got a thing for me  
I've got my mind made up  
You've got my heart you know  
You've got a thing for me

You've got a thing for me
