

# Back To What You Knew

G-Eazy

I knew these are all the things you would do, yeah  
You call me a monster, but this is what you turned me into  
When you went right back to what you knew  
You went right back to what you knew, yeah  
You tore me in two  
When you made my worst fear come true  
When you went right back to what you knew  
(When you went right back to what you knew)  
I think we might be over this time, yeah  
I thought that we was over last time, yeah  
At least could you be sober this time?  
So we can maybe finally find some closure this time  
You really fucked me over this time  
But I guess at least we came closer this time  
Thought that it would work 'cause we was older this time  
Mm  
You really fucked me over this time  
But I guess at least we came closer this time  
At least we came closer this time  
I knew these are all the things you would do, yeah  
You call me a monster, but this is what you turned me into  
When you went right back to what you knew  
You went right back to what you knew, yeah  
You tore me in two  
When you made my worst fear come true  
When you went right back to what you knew  
(When you went right back to what you knew)  
Yeah, I'm at the end of my rope  
I feel it sinkin'  
Like there's a hole in this boat  
I need some medicine  
Take heavy doses to cope  
But it's all your fault  
You got us both in the cold  
This fight is over  
I think we're both on the ropes  
I can't swing no more  
Got no more punches to throw, yeah  
And I wish the shit would just go away  
Just go away, would just go away, yeah  
But that shit isn't how love works  
I guess that's why they say love hurts  
In pain and I ain't felt nothin' worse  
Nothin' worse, yeah  
I knew these are all the things you would do (you would do) yeah  
You call me a monster (call me a monster)  
But this is what you turned me into (it's what you turned me into)  
When you went right back to what you knew  
You went right back to what you knew, yeah  
You tore me in two  
When you made my worst fear come true  
When you went right back to what you knew  
(When you went right back to what you knew)
