

## But A Dream

G-Eazy

Legendary swag, young god, stay drippin'  
Spillin' champagne on a boat, big pimpin'  
Life is but a dream, look bitch, stop trippin'  
You know what it is, you know what it isn't  
She just get it poppin' every time daddy visits  
Drinking by the pool, go ahead and take a dip in  
Life is but a dream, we livin', stop trippin'  
You know what it is, you know what it isn't

I really put the work in, don't you ever try to play me  
I would die a legend if today they JFK'd me  
Ridin' in my '65 listening to Amy  
I've been to hell and back and through it all remained the same me  
I never gave a fuck, a million dollars couldn't change me  
As long as Mark Zuckerberg's still got that zipped hoodie  
I think about the journey and think what it did to me  
I'm eating like a king until I've got a big tummy  
Hair slicked backwards with a skin, fade taper  
Captain Save-A-Hoe, never I, can't save her  
She said I drive her Mad, Gerald's rap's Don Draper  
All day I touch paper, bitch don't ask me no favors  
If you wasn't here before it, your call, I ignore it  
How quickly they forgive, these days I swear I can't support it  
Six-hundred horsepower, I just hop inside and floor it  
The money, I adore it, every year I'm getting more lit

Legendary swag, young god, stay drippin'  
Spillin' champagne on a boat, big pimpin'  
Life is but a dream, look bitch, stop trippin'  
You know what it is, you know what it isn't  
She just get it poppin' every time daddy visits  
Drinking by the pool, go ahead and take a dip in  
Life is but a dream, we livin', stop trippin'  
You know what it is, you know what it isn't

She just so bad, make you take a second look  
I fly out for a week, she just come to fuck and cook  
And post by the pool, with her feet up, read a book  
I text her "L.A.?" that was all it took  
She clicks her heels three times, she'll be here by tonight  
I text my travel agent name and birthday, it's a flight  
When we was broke, I used to tell my moms we'd be alright  
I'm gonna work the long nights and never be a fly-by-night  
I put my plans in motion, I fly across the ocean  
I popped before the flight so I could see her dreams in motion  
And I be out in London, Dover Street, I goes in  
Fuck that after-party money, spent that on some clothing  
And I'm not trying to flex, you know who be hatin'  
This is for my little bruhs, just some inspiration  
Everybody back off, first is motivation  
So go and get the money, get the dreams, keep on chasing

Legendary swag, young god, stay drippin'  
Spillin' champagne on a boat, big pimpin'  
Life is but a dream, look bitch, stop trippin'  
You know what it is, you know what it isn't  
She just get it poppin' every time daddy visits

Drinking by the pool, go ahead and take a dip in  
Life is but a dream, we livin', stop trippin'  
You know what it is, you know what it isn't
