

Drinks Up

G-Eazy

Got my feet on the ground, my head's in the sky
So go and grab a drink if you feelin' like I
Throw one back and put your drinks up high
Throw one back and put your drinks up high
Got my feet on the ground, my head's in the sky
So go and grab a drink if you feelin' like I
Throw one back and put your drinks up high
Throw one back and put your drinks up high

You takin' shots of that Cognac, this bottle here is special
But chill if you a lightweight 'cause the hangover is dreadful
And see when I'm on it I'm so forgetful
When I take shots I transform Mr. [?]
Blame it on the syrup, if I'm actin' so embarrassed
Wilin' out in Pairs and she think 'cause I'm american, I'm arrogant
Just because I had a couple drinks, I apologize in advance
'Cause I don't really think straight
When I've had a couple drinks in my system
Mix them, whiskey and that sour mix, I'm thinkin'
Yeah I, gotta set the evening on the right track
Shots to the neck I know you like that

Got my feet on the ground, my head's in the sky
So go and grab a drink if you feelin' like I
Throw one back and put your drinks up high
Throw one back and put your drinks up high
Got my feet on the ground, my head's in the sky
So go and grab a drink if you feelin' like I
Throw one back and put your drinks up high
Throw one back and put your drinks up high

Pu-put your drinks up high
Put your drinks up high
Drinks up, drinks up high
Drinks up high
Put your drinks up high
Pu-put your drinks up high
Drinks up high

See whether at a house party, bar, kick it or a function
I'm absolutely always drinkin' something
Whether Absolute or Russian
Sky Goose, take your pick, or rather gin
Come home at 4am, tomorrow do this shit again
It's all peace and love, so you know we drunk and high
VIP chillin', rolling up some skunk and I
Could kiss the planet earth goodbye
No lie, I feel like my head is in the sky

Got my feet on the ground, my head's in the sky
So go and grab a drink if you feelin' like I
Throw one back and put your drinks up high
Throw one back and put your drinks up high
Got my feet on the ground, my head's in the sky
So go and grab a drink if you feelin' like I
Throw one back and put your drinks up high
Throw one back and put your drinks up high
