

Faithful

G-Eazy

I don't wanna be a part-time lover
I don't wanna make you wonder where I've been
I don't wanna get myself in trouble, out there fuckin' 'round with these hoe
s again
I don't wanna make you feel insecure, baby
Wanna be yours, baby
Something 'bout you got me feeling more mature lately
Make you the only girl in the world

I done broke so many hearts, it's disgraceful
And I know your mama told ya I'm no angel
But, if you walked out right now, it would be painful
Girl, you're so bad, you make me faithful

At the crossroads and now I got the blues
I know Page Six tagged me, but you ain't watch the news
I know I made mistakes that you just can't excuse
I know I did you no favors far as your trust issues, were concerned
Second chances, got burned
Each time that I went back on my word, you thought I'd learn
As the vinyl turns, Usher Raymond - 6, "Let It Burn"
And I'll just be here waiting until this karma returns like

I done broke so many hearts, it's disgraceful
And I know your mama told ya I'm no angel
But, if you walked out right now, it would be painful
Girl, you're so bad, you make me faithful
Faithful, to you
Faithful, to you

You say I lost my way and you hope it gets found
Pick the pieces back up, turn this whole thing around
You told the truth, I understood when you broke it all down
These double standards that you deal with, I'm noticing now
You get upset when I'm on the road and these hoes are around
But it's a job, I can't stay home and be broke in the town
You know the real me, yeah, the Gerald when no one's around
The only one person I thought of when I wrote this shit down
But reverse roles, we suddenly swapped
I'm out the picture now and there'll be some things that get cropped
And all this stuff is pretty faces and Photoshop
But, I would trade 'em in a heartbeat, every one would get dropped

I done broke so many hearts, it's disgraceful
And I know your mama told ya I'm no angel
But, if you walked out right now, it would be painful
Girl, you're so bad, you make me faithful
Faithful, to you
I'm gonna be, faithful, to you

Faithful, to you
I'm gonna be, faithful, to you
