

Helium

G-Eazy

I'ma need your love, I'ma need your love
I'ma need your love, I'ma need your love
Running out of pills that can lift me up
You're my helium, you're my helium
I'ma need your love, I'ma need your love
I don't know who to trust, don't know who to trust
Feel it in my lungs, feel it in my lungs
You're my helium, you're my helium

I need you like I need to breathe the air in my lungs
I need you like I need the plug to bring me my drugs
If I can't have you, you don't wanna see what this does
Goin' through withdrawals, left a bunch of missed calls
Tweakin', tweakin' like a fiend, my texts goin' green
An active addiction, I'm the furthest thing from clean
Your love is like heroin, the strongest morphine
So serene
Wonder if this all a dream
Yeah

We're both broke and that's probably why we broke apart
Pointless, try supergluin' a broken heart
I said, "I need you," and she text me back, "KK"
Give me twenty, baby, I be on the way
Ay, ay

I'ma need your love, I'ma need your love
I'ma need your love, I'ma need your love
Running out of pills that can lift me up
You're my helium, you're my helium
I'ma need your love, I'ma need your love
I don't know who to trust, don't know who to trust
Feel it in my lungs, feel it in my lungs
You're my helium, you're my helium

Yeah, easy come, easy go, wish it was that easy, though
Wonder if it's harder to let habits or let people go
Bon Iver said, "Skinny love," but Suga Free said free her, though
Tryna drink the pain away, I'm tweakin', tweak, tweak, tweak
Tweakin' like I'm not callin' you at 4 o'clock
She said, "Don't you know I got a job? Would you fuckin' stop?
Would you let me get some sleep? You keep callin' on repeat"
Vicious cycles
We recycle
Same shit happens every week
Sheesh

I'ma need your love, I'ma need your love
I'ma need your love, I'ma need your love
Running out of pills that can lift me up
You're my helium, you're my helium
I'ma need your love, I'ma need your love
I don't know who to trust, don't know who to trust
Feel it in my lungs, feel it in my lungs
You're my helium, you're my helium

Easy come, easy go, easily I shoot you, ho

Easy come, easy go, easily I shoot you, ho
Easy come, easy go, easily I shoot you, ho
Easy come, easy go, easily I shoot you, ho
