

# Leviathan

G-Eazy

Wanna mess with me, you better know your plan  
Look around till you've lost your way  
I play no games I've got many names  
Wanna swim in fire, don't take all day  
Trouble me and don't be afraid  
Still got time to walk away  
Lucifer, Leviathan (yeah)  
He is I girl, and I am him

Yeah

Be careful, you don't want this  
Carefree, but there's a dark side that haunts this  
Paparazzi gossip, loves to watch this  
But drugs take me away when I pop this  
Rock 'n Roll, lifestyle at a fast pace  
'Rari like a Nascar in a drag race  
Zoom, zoom, why the fuck are you in last place?  
Need to catch up where I'm at, that's a fast chase  
Uh, take a shot 'cuz you're drinking slow  
Pour a glass, but nothing's chasing my whiskey though  
So, if you didn't know now, I'm a savage  
And this has already been established  
Your friends tried to dip, but you here, you're not trying to go  
If you ain't ready for it all, good, let me know  
I looked her in her eyes, she stared back all silent

When I told her I'm the devil, I was smiling

Wanna mess with me, you better know your plan  
Look around till you've lost your way  
I play no games I've got many names  
Wanna swim in fire, don't take all day  
Trouble me and don't be afraid  
Still got time to walk away  
Lucifer, Leviathan (yeah)  
He is I girl, and I am him

Drugs on the table on a Wednesday  
Long nights and Advil for the next day  
You'd be scared if you listen what you're friends say  
The worst thing to happen to you, in the best way  
Yeah, but no lie, you're attracted to it  
A good girl, but you're scared that it's bad to do it  
Life in sin, every night we get back into it  
But, see, I live in this place, you just passin' through it  
Welcome to my world, let me walk you through it  
If you step inside the Matrix, ain't no dodgin' bullets  
Ain't no fairy-tale, welcome to the darker side  
Moon rocks, a glass of water, now she on a ride  
Yeah, she's like "damn, y'all are wildin'"  
We live a little different, living on my own island  
But clearly it's working 'cuz the money keep piling

When I told her I'm the devil, I was smiling

Wanna mess with me, you better know your plan  
Look around till you've lost your way

I play no games I've got many names  
Wanna swim in fire, don't take all day  
Trouble me and don't be afraid  
Still got time to walk away  
Lucifer, Leviathan (yeah)  
He is I girl, and I am him

Lucifer, Leviathan  
He is I girl, and I am him

It's a monster, it's not safe here  
Run for the hills, but not these hills  
Land of after-parties and the cheap thrills  
Liquor red cups, endless refills  
Weed, cocaine, molly, e-pills  
Looks sweet, but the devil's in the details  
The flow switch pace when the beat builds

Lucifer

Wanna mess with me, you better know your plan  
Look around till you've lost your way  
I play no games I've got many names  
Wanna swim in fire, don't take all day  
Trouble me and don't be afraid  
Still got time to walk away  
Lucifer, Leviathan (yeah)  
He is I girl, and I am him
