

# Mango

G-Eazy

Little momma let me see you move  
Little momma let me see you move  
And I might go down  
Little momma let me see you move  
Little momma let me see you move  
And I might go down  
Let me taste that mango  
Let me taste that mango  
Let me taste that mango  
And I can do it from a couple different angles

She eye-fucked me like she wanna get seduced  
Come to the VIP couple shots of the goose  
Couple songs later let your girl get loose  
Sipping on that Tropicana mango juice  
And that was cliche, but I gotta go pop just to reach buzz  
I need you to follow what the beat does  
Kiss up on your toes I can probably make your feet buzz  
Moving up, I want to play with your peach fuzz  
Tickle in your thighs with your legs to the sky  
Take a break and look up, take a look up in your eyes  
Spread your legs real wide and continue  
You're shaking I know you want me in you  
So tell your boyfriend to stay away  
I'm trying to come through and put it down baby  
Lately I've been thinking how I wanna have fun  
And my tongue wants to play with your vah jay jay

Told ya, little momma like to move it like a vibrator  
That ain't got nothing on the places I'll take ya  
I'll make your, face change up  
Don't worry about dripping my face stain whats  
Little nasty you know I'mma Scorpio  
If I get it hot I could take it to the Alamo  
I'm a savage, you know I wanna tap it  
I'm really trying to see about that mango madness  
Absolute really got me perking  
I told her my name so I'm way past working  
This for certain, I'm way past workin'  
I took her to the back and began my service  
Got a woman in a rainforest in Brazil  
Make her feel like she popped a couple pills  
Funny what I can make a girl do  
Tongue twister, I turn that thing into a whirlpool

Girl tell me who you want more  
Little momma let me see you move  
Little momma let me see you move  
And I might go down  
Little momma let me see you move  
Little momma let me see you move  
And I might go down  
Let me taste that mango  
Let me taste that mango

Let me taste that mango  
And I can do it from a couple different angles  
Girl tell me who you want more  
Girl tell me who you want more
