

## Over Me

G-Eazy

Bag secured, I only walk through if the cash right  
Finest VVses turn my wrist into a flashlight  
So even when it's dark out, I see you the hatin' ass type  
Divas layin' in my bed, "Let's talk about last night"  
This is nothing new to me, I shine without no jewelries  
Since 2007, I had hoes who went to school with me  
Usin' hall passes, in the bathroom showing nudity  
I smack a booty cheek, then head back to class foolishly  
I been on some dumb shit way before I went through puberty  
Youngster acting stupidly  
I took it to a new degree  
Labeled as a nuisance in the billionaire community  
Checks are in the mail, I see this money stacking beautifully  
Upgraded my roster, I'm the GM of the year, ho  
If you don't want your lady taken from you, steer clear, bro  
All-Star team of birds, you should just be careful  
I'm the alpha, when you're in my presence you get fearful  
I feel you

I don't know, it just came over me  
I don't know, it just came over me  
My old bitch over me, she want the sober me  
I don't know what possessed this foolery  
What's all over me? That's jewelery  
(That's jewelry, baby)  
What's all over me? That's jewelery  
(That's jewelry, baby)  
Baby, what just came over me?  
I don't know, it just came over me

Uneducated know-it-all  
I'm chargin' for it, that's the protocol  
I bought it worn, like an old revolve  
I'm bearin' arms just to throw it off  
All this showin' off  
Don't know what came over me  
I just fucked up a deal for a 40 piece  
AV Audi, put some gold ropes up over me  
And TV Johnny put some property up in my teeth  
How many enemies, without a memory?  
I'm still burnin' bridges, ain't no goin' back  
House full of bitches spillin' rose in my Cognac  
Poverty restrictions got me driven like a Hellcat  
All these new additions came from knowing who to subtract  
I bust first and changed my social (habits)  
Dodged the feds' search, I hid my dope in the casket  
Still I keep a choppa in the closest cabinet  
I'm possessed, I pull a Ghost West bracket

I don't know, it just came over me  
I don't know, it just came over me  
My old bitch over me, she want the sober me  
I don't know what possessed this foolery  
What's all over me? That's jewelery  
(That's jewelry, baby)  
What's all over me? That's jewelery  
(That's jewelry, baby)

Baby, what just came over me? (golden)  
I don't know, it just came over me

Yeah, I don't know what just got into me  
Hennesey'll be the end of me, this shit'll finish me  
I cut her off cause was trippin', actin' finicky  
I moved on to Leo's girls, that's why he's gettin' sick of me  
Yeah, just a bunch of tom foolery  
Pharmacy of drugs stay in my little pocket usually  
Elicit substances, I'm lovin' what they do to me (yee)  
My body covered all in jewlery  
Yeah, I don't know what just came over me  
She wants to fuck me right now, I'm like "totally"  
Mixtape out, you barely poppin' locally  
I sell out shows in Switzerland, I do this shit globally  
Yeah, success might have really fucked my head up  
I'm drinking Stillhouses by the red cup  
I count a million cash, then say "Bless up"  
I'm poppin' right now, fuck a next up (ayy)

I don't know, it just came over me  
I don't know, it just came over me  
My old bitch over me, she want the sober me  
I don't know what possessed this foolery  
What's all over me? That's jewlery
