Provide

G-Eazy

Woah
I'm just sayin'
Come on
You know who you are
Haha
Ooh, yeah
It's a vibe
(Hitmaka!)

It's the return of the mack, RIP to Furl
I promise you ain't nothin' like these LA girls
And we can sip slurricane listin' to Earl
Who knew we'd bring the Bay to the world?
Love letters to you hit different than any shit that I wrote
I sent flowers to your office, hope you get the note
I put an inside joke between us right there in the quote
I'll sing your praises all day, I'll hit the Whitney note (Ooh)
'Cause you're my queen, all that I need, yadadamean
Radiohead and rainbows, ultralight beams
This wordplay's more like tennis, don't need a team
It's just me and you and it's everything that it seems, for real

Ooh, just vibe with me (Vibe)
Come on, let's do some things we never do
Switch sides, get dry
So what? So what? I need (So what? I need)
Don't turn down now
Tell me if you need a timeout
Girl, it's just you and us, baby
Rollin' up, baby, you playin'
Just vibe, yeah

Know you feel boxed in, let me get you out your mind frame
Just know I'm serious, I ain't into playin' mind games
We could go rounds, I wanna eat it like a entrée
Favorite position, I be hittin' that all kinda ways
You throw it back, I spent ten stacks, I feel like Andre
You into zodiacs? Girl, tell me what your sign say
Won't take your love for granted, it could all be gone today
Let's get away, tuck off, way out in Monterey
You said you scared of heights, but I know you ain't scared to ride
Come where I reside, pull them panties to the side
Fuckin' when you mad, make me love when we collide
Could tell I was invited how you let me come inside
Made me switch plans, had to change up the course
And we know that love don't feel the same when it's forced
You could pick, we hoppin' out the Range or the Porsche?
Now you mad, slappin' "Lemonade" in the Porsche
Relax, baby

Ooh, just vibe with me (Vibe)
Come on, let's do some things we never do
Switch sides, get dry
So what? So what? I need (So what? I need)
Don't turn down now
Tell me if you need a timeout
Girl, it's just you and us, baby

Rollin' up, baby, you playin'
Just vibe, yeah

Uh
You in my city (My city)
So I'm not gon' take it easy on you (You know)
Never let you love nobody else (Uh, uh)
Baby, I'ma keep you up all night (Woo)
Sexin', don't keep it from me (Uh)
He ain't me, I look better (Look better, uh)
Come on, baby, I need your lovin'
Forever and ever (Forever and ever)

Ooh, just vibe with me (Vibe, haha)
Come on, let's do some things we never do (You know)
Switch sides, get dry (Ayy)
So what? So what? I need (So what? I need, woo)
Don't turn down now
Tell me if you need a timeout
Girl, it's just you and us, baby
Rollin' up, baby, you playin'
Just vibe, yeah

Hahaha
Sheesh
You know
From the Bay to the universe
