G-Eazy

Hitmaka!

I can't take you blowin' up my line  
Fuckin' up my vibe every night  
Look at this back and forth shit  
We might have to rewind  
We might have to rewind (ohh)

Fuckin' up my vibe every night  
Look at this back and forth shit

Good vibes only  
Can't be held back for nothing, no ties on me  
I'm tryna be as big as Pac, all eyes on me  
And why you sayin' we're together?  
You're just my homie, fall back  
Be kind and rewind  
Let's backtrack, I need time  
I need some good weed and me time  
I hit you with peace sign, no cat, no feline  
I say how I feel, I might have to resign  
And quit this, you so suspicious  
Made you the one, you still trippin' off bitches  
If this was '06 I'd go Bad with the quickness  
It's time to admit this ain't work out, no fitness like (yeah)

I can't take you blowin' up my line  
Fuckin' up my vibe every night  
Look at this back and forth shit  
We might have to rewind

Every single night she wants some more of me (ayy)  
I'ma have to curve with some authority (ayy)  
Bringin' hell drama you ignoring me  
Know what's good only if I invited you cordially (ayy)  
Plus you always mad for the majority  
Of the time we spend together, that ain't how it's supposed to be  
Once you got close with me, you kept on tryna pose with me  
Post it on the gram, you just tryna flex socially (ayy)  
It's a vibe, be careful it's alive  
Always strapped, she might shoot a bullet in a vibe  
And lately it's been feelin' like it happens every time  
You fuckin' up my high, shit I might have to rewind like

I can't take you blowin' up my line (yeah)  
Fuckin' up my vibe every night  
Look at this back and forth shit  
We might have to rewind

You make time (you make time)  
For what you like (what you like, yeah)  
You switched sides (haa-aa-aaa-aa) (uh, ayy)  
Gotta free myself  
You say you don't need my help  
Say she wanna be selfish  
You can do it by yourself

I can't take you blowin' up my line (I can't)  
Fuckin' up my vibe every night  
Look at this back and forth shit  
We might have to rewind
