

## Right Now

G-Eazy

If there's a party scream loud right now  
Ladies please remove your bras right now  
1 keg, 2 mics, and a stage  
Homies say, "Ho!". Girlies say, "Hey!"

Got some home shipped in trynin' to twist up  
Get your day fucked up smokin' this stuff  
Imagine Mary and music all mixed up  
Well this is what our lifestyles consist of  
Out in Austin gettin' Texas love  
Gettin' everybody high like the breakfast club  
Pretty women showin' extra love  
Roll up and we burn through J's so protection up?  
Uh, jungle juice go pour you a glass full  
Got the whole gang here with me I'm a rascal  
If you bow bob, go ahead burn a stash full  
Red cups up if you toast to the assholes  
Doin' shots and we straight get plastered  
John Beluishi is who I've taken after  
A rock show in front of pretty hoes  
Word up I'm your girlfriend's favorite rapper

First off, where the butt naked strippers at?  
We tryin' to party, we ain't really trying to hit the sack  
Up all night 'till the sun's what we're lookin at  
We do our own show and we run the set  
G, bring the beat. DJ, bring it back  
Comeon ya'll this ain't a rare occasion  
We make hits cause other cats is lazy  
Blowin hella weed while the beat keep playing  
Huh, comeon tell me what you want now  
We the best at it, with our own style  
Low profile, but they still hate  
So we look the other way fuck it we on the money chase  
Gettin' poppin', doin shows in every other state  
It's the robot game, we get busy  
And each and every night doing shows in different cities  
With bitches showin' they titties (Ow!)

Shit's bad, kinda drunk where's the soft leg?  
These other losers are workers, we get boss bread  
The top leaders in your speakers, the new teachers  
Above the rest we sign t-shirts and nice press  
Why yes, my life is so far fetched  
To try this? Sit back and watch my steps  
Seem hard like the '96 bulls now days I got more than just pool  
No average shit  
Pass that shit when it's lit in my presence  
Get a check get the next check spent it all I ain't check  
Shit gettin crazy  
Sun is up nobody left  
No if, ands, or maybes  
It was wale, gotta guess  
you gotta get  
This life for nothing  
Baby who you coming with? Real easy decision
