

# She's Fire

G-Eazy

She sets off all the fire alarms  
When she walks in the room  
Leaves you in a pile of ashes  
With one look at you  
Her lips, her dress both devil red  
She'll make a mess of you  
She comes to slay, she owns the game  
And she don't play to lose

And she'll knock you off your feet, yeah  
And she'll drop you to your knees, yeah  
But she's coming home with me, yeah  
That's my baby, yeah

She's fire (she's fire), she's fire (she's fire)  
But somehow she's so smooth  
She's mine (she mine), she's mine (she mine)  
Boy, she's gonna drive me loco  
All night (all night), all night (all night)  
Everything she do, every single move  
That's why (that's why), that's why (that's why) (you know) (oh yeah) (uh)  
Yeah, she's fire

Yeah, as Santana plays the melody  
I cry with his guitar, the vibrations that its sending me  
Friends tried to warn me, I ain't hear what they was telling me  
Like in the movie "Blow" when Johnny first saw Penélope, yeah  
She's the type to leave me left for dead (uh)  
'Cause somehow she's always ten chess steps ahead  
Sending paragraph texts and I get left on read  
But all is fixed and forgiven when she gets in bed, uh  
She be driving me the craziest  
Cost me my sanity from all this time spent chasing this  
Get what you paid for but do I wanna pay for this?  
Had me in my head, I asked myself, am I okay with this?  
Or, uh, is my perspective skewed?  
Feel like I'm stuck on her, I feel like I'm glued  
But, yeah, not to be misconstrued  
'Cause I would change my whole life to better suit your mood

She's fire (she's fire), she's fire (she's fire)  
But somehow she's so smooth  
She's mine (she mine), she's mine (she mine)  
Boy, she's gonna drive me loco  
All night (all night), all night (all night)  
Everything she do, every single move  
That's why, that's why (oh yeah)  
Yeah, she's fire

She's fire  
She's fire  
She's fire

Ella es muy caliente, she's fire  
Que me ta volviendo loco, negra  
Everything she do, every single move

She's fire (she's fire), she's fire (she's fire)  
But somehow she's so smooth  
She's mine (she mine), she's mine (she mine)  
Boy, she's gonna drive me loco  
All night (all night), all night (all night)  
Everything she do, every single move  
That's why, that's why (that's why) (oh yeah)  
Yeah, she's fire  
She's fire  
Yeah, she's fire  
She's fire  
Yeah, she's fire
