

# Sleepless

G-Eazy

Late nights with early mornings  
With straight flights back to New Orleans  
Trying to stay focused on what's important  
The ones that matter, they stay supportin'  
So I stay recording, my plane is boarding  
Y'all are funny style just like Tracy Morgan  
Haters speak but I straight ignore 'em  
My lady's Greek and her face is foreign  
Like every week I'm going places tourin'  
Y'all are hella weak, the songs you make is boring  
Sleepless, stressin' about success, I light and pass the dro  
Every now and then these things do happen though

Sleeplessness is killing me  
Promises that you would pray for me

This lifestyle, man it cost a bit  
The anxiety I'm exhausted with  
One day they'll say "He just lost his shit"  
Losin' sleep in the studio trying to make sure it's the hottest  
shit  
But the fans get anxious like "When the fuck are you dropping s  
hit?"  
Man come off of it, rappers dropping the softest shit  
While I'm working 'til I'm on top of it  
Never take a second and stop and sit and just watch a bit  
Sleepless, stressin' about success, I light and pass the dro  
Every now and then these things do happen though

Promise me you'll pray for me  
Been working every day faithfully  
Could really use an eighth of weed  
Now I'm going crazy, basically  
The album's coming, I promise y'all  
You see how long it's taking me? Wait patiently  
Since nine I've made my mind, them nine to five's just ain't fo  
r me  
A dead end job's no place to be, star's what I'm on pace to be  
I come from nothing but a bus pass and a dream  
No, I must have some esteem  
You can trust that's what it mean, yeah
