

Sun Bleached & Dried

G-Eazy

Underneath it all
I feel a sadness
But there's something beautiful
Behind the madness
Underneath it all
I'm torn apart
Before we even fall
We prolly shouldn't start

'Cause I'm a lonely man
'Cause I'm a lonely man

This prolly won't work
I warned you I was bad news
This will only hurt
But you left your taboos
So many red flags
Cocaine and tattoos
Glassy eyes with bags
I shouldn't be around you
I shouldn't be around you

'Cause I'm a lonely man
'Cause I'm a lonely man
'Cause I'm a lonely man

Many moons ago
I dropped my soul outside
Left and forgotten
I always feel sun bleached and dried
Good for nothin'
Nothing to provide
I could meet you out front
But I can't let you inside
