Vampires

G-Eazy

I love it when you're high, I hate when you're hot
I love when you laugh, I hate when you sad
I love when you happy, I hate when you cry
I love when you love me, I hate when you lie
I love when you look up with those devil eyes
I hate when you're outside with ten other guys
Burns me inside
Whatever you do, just keep feeding me lies
I think I like you better at night
I don't know if I would like you in the daylight
But you got the green light, so party and stay out all night
Go do whatever you like, because I like it when you get high
'Cause when we get high, you're all mine

You like to use, I use you too
We treat these chemicals like wings so we can fly
I hear the truth in all your lies
I think I like you so much better when we're high

That trauma bond brought us together
We broke up then got back then, got back then, got back then, g
ot back together
Back to black, it's never enough
I love blow, you love puff
Love another drugs and some other stuff
We argue then fight then fuck
Messy hair, smoky eyes, bathtubs and threesomes
Anticipation, like can I get me some?
Don't you know that I'm vampire, I bite (I bite)
I don't know if I would like you in the daylight
But you got the green light, so party and stay out all night
Go do whatever you like, because I like it when you get high
'Cause when we get high, you're all mine

You like to use, I use you too
We treat these chemicals like wings so we can fly
I hear the truth in all your lies
I think I like you so much better when we're high

You like to use, I use you too
We treat these chemicals like wings so we can fly
I hear the truth in all your lies
I think I like you so much better when we're high
