

## 7 Days

G Flip

I had to drive across the country  
Just to get away from  
My bedroom floor, your fucking calls  
'Cause I can barely function

And I realize that I can't  
Just wipe you from my twenties somethings  
When the sun in the sky gives way  
I'll pay for what this empty cup brings

I can see you with the door closed  
7 days, no lights, no windows  
Can't face my pillow  
With your face still in my head  
Trying to make me better  
7 days I won't remember  
7 days I can't forget her  
7 days I can't forget her

You sink your teeth into my neck  
Am I another sucker?  
Then leave so easy, baby, how  
The hell do I recover?

I realize that I can't  
Just wipe you from my twenties somethings  
When the sun in the sky gives way  
I'll pay for what this empty cup brings

I can see you with the door closed  
7 days, no lights, no windows  
Can't face my pillow  
With your face still in my head  
Trying to make me better  
7 days I won't remember  
7 days I can't forget her  
7 days I can't forget her

7 days I won't  
7 days I won't  
7 days I won't  
7 days I can't forget her  
7 days I won't  
7 days I won't  
7 days I won't  
7 days I can't forget her

I can see you with the door closed  
7 days, no lights, no windows  
Can't face my pillow  
With your face still in my head  
Trying to make me better  
7 days I won't remember  
7 days I can't forget her  
7 days I can't forget her
