

## About You

## G Flip

Now that I can see another part of me  
Hittin' back, slap in the face, yeah, you were the key  
Yeah, I knew I'd see this other part of me  
Beat in my chest, pain in my breast, yeah, you were the key  
And you know, you know that you were right  
You know, you know I hate to fight  
You know, you know I can't believe

You're right there  
And I'm right here thinking 'bout  
Here thinking about you  
About you  
See, you're right there  
And I'm right here thinking 'bout  
Here thinking about you  
About you  
(There thinking about you)

Yeah, we got crazy, yeah, it did phase me  
When you just went and took off  
Yeah, I know I pushed you  
Didn't think you'd follow through and leave me on the rocks  
Yeah, I still got no honey, I still got no honey  
And we still acting funny, we still acting funny  
Yeah, I could chase you, we'd be up all night  
Like the old days, yeah, we'd never had a fight  
Still, I don't know, maybe that just goes to show  
I don't know if you're just gonna go, you're just gonna leave  
We're just living off pages, this book's for the ages  
A rollercoaster like we said, hun

You're right there  
And I'm right here thinking 'bout  
Here thinking about you  
About you  
See, you're right there  
And I'm right here thinking 'bout  
Here thinking about you  
About you  
(There thinking about you)

[illegible]

Or give me one more chance

You're right there  
And I'm right here thinking 'bout  
Here thinking about you  
About you  
See you're right there  
And I'm right here thinking 'bout  
Here thinking about you  
About you  
(There thinking about you)
