

Drink Too Much

G Flip

I got a crush on Steph Claire Smith
But she'd never like no fool like me
But I'm more than my crooked teeth

No one wants to ride my wave
Am I really that insane?
Mama said don't misbehave, yeah
And if I wanna make it work, I better go and dish my dirt

So I'm sorry if you ever have to carry me home
I'm sorry if I ever make you feel so alone
I'm sorry if I never ever pick up my phone
When you really need me, you really need me

I'm sorry if you ever have to carry me home
I'm sorry if I ever make you feel so alone
I'm sorry if I never ever pick up my phone
When you really need me

I just want to get into trouble
I wanna be out till lunch
Last girl, she dumped me
'Cause I would drink too much
I just want to get into trouble
I wanna be out till lunch
Last girl, she dumped me
'Cause I would drink, I would drink
I would drink too much

I'm feelin' low, you never know
Gettin' in trouble
'Cause I would drink, I would drink
I would drink too much
I'm chasing highs in stranger's eyes
Gettin' in trouble
'Cause I would drink, I would drink
I would drink too much

Doesn't have to be this way
Would you ride with me, fly with me? No, no
'Cause no one wants to stay with me
No one wants to play with me

So I'll go, two shots through the door
Say it again
If I wanna make you work, better go and dish my dirt

I just want to get into trouble
I wanna be out till lunch
Last girl, she dumped me
'Cause I would drink too much
I just want to get into trouble
I wanna be out till lunch
Last girl, she dumped me
'Cause I would drink, I would drink
I would drink too much

I'm feelin' low (I'm feelin' low)
You never know, gettin' in trouble
'Cause I would drink, I would drink
I would drink too much
I'm chasing highs (I'm chasing highs)
In stranger's eyes, getting in trouble
'Cause I would drink, I would drink
I would drink too much

('Cause I would, I would)
(I would drink too much)
'Cause I would, I would)
(I would drink too much)

I just want to get into trouble
'Cause I would, I would)
(I would drink too much)
'Cause I would drink, I would drink
I just want to get into trouble
'Cause I would, I would)
(I would drink too much)
'Cause I would drink, I would drink
I would drink too much

I'm sorry if you ever have to carry me home
I'm sorry if I ever make you feel so alone
I'm sorry if I never, ever pick up my phone
When you really need me, you really need me

I'm sorry if you ever have to carry me home
I'm sorry if I ever make you feel so alone
I'm sorry if I never, ever pick up my phone
When you really need me
