

Hyperfine

G Flip

Hyper hyper fine
Hyper hyper fine
Hyper hyper fine
(I love her)
Hyper hyper fine
Hyper hyper fine

Listen this ain't a competition
I am not your opposition
I just want to be forgiven
Is there something that you want
That you need
From me
Then tell me

I am cautious that I don't start a fire
Real love never comes with ease
If you're hurting then please tell me prior
Don't get up and leave

Why don't you just speak your mind
Always saying that you're fucking fine
But I know you're not fucking fine
I just want to be notified

Why don't you just speak your mind
Always saying that you're hyperfine
But I know you're not hyperfine
I just want to be notified

Why why why
(Tell me why)
Won't you say what is on your
Mind mind mind
Oh cus I won't believe you
I know it must be tempting
There's so many fish in the sea
But if you break up with your boyfriend (boyfriend)
You'll never find another like me

I am cautious that I don't start a fire
(Careful with that match now)
Real love never comes with ease
(Ain't shit easy)
If you're hurting then please tell me prior
(I mean no harm)
Don't get up
(No no)
And leave
(Don't leave)

Why don't you just speak your mind
Always saying that you're fucking fine
But I know you're not fucking fine
I just want to be notified

Why don't you just speak your mind

Always saying that you're hyperfine
But I know you're not hyperfine
I just want to be notified
I just want to be notified

Hyper hyper fine
Hyper hyper fine
Hyper hyper fine
Hyper hyper fine
Hyper hyper fine

I am cautious that I don't start a fire
Real love never comes with ease
If you're hurting then please tell me prior
Don't get up and leave

Why don't you just speak your mind
Speak your mind
Always saying that you're fucking fine
Fucking fine
But I know you're not fucking fine
Fucking fine
I just want to be notified

Why don't you just speak your mind
Always saying that you're hyperfine
But I know you're not hyperfine
I just want to be notified
Why don't you just speak your mind
Always saying that you're fucking fine
But I know you're not fucking fine
I just want to be notified
Why don't you just speak your mind
Always saying that you're hyperfine
But I know you're not hyperfine
I just want to be notified
