

Hyperfine

G Flip

Listen this ain't a competition
I'm not your opposition
I just wanna be forgiven
Is it something that you want
That you need
From me
Then tell me

I am cautious that I don't start a fire
Be alone if it comes with ease
If you're hurting then please tell me prior
Don't get up and leave

Why don't you just speak your mind
Always saying that you're fucking fine
But I know you're not fucking fine
I just wanna be notified
Why don't you just speak your mind
Always saying that you're hyperfine
But I know you're not hyperfine
I just wanna be notified

Tell me just say how you feel
This ain't a big deal
Let's be open and real
Is it something that you want
That you need
From me
Then listen

I am cautious that I don't start a fire
Be alone if it comes with ease
If you're hurting then please tell me prior
Don't get up and leave

Why don't you just speak your mind
Always saying that you're fucking fine
But I know you're not fucking fine
I just wanna be notified
Why don't you just speak your mind
Always saying that you're hyperfine
But I know you're not hyperfine
I just wanna be notified

Fine, we're hyperfine
Fine, we're hyperfine
Fine, we're hyperfine
I just wanna be notified
Fine, we're hyperfine
Fine, we're hyperfine
Fine, we're hyperfine

I am cautious that I don't start a fire
Be alone if it comes with ease
If you're hurting then please tell me prior
Don't get up and leave

Why don't you just speak your mind
Always saying that you're fucking fine
But I know you're not fucking fine
I just wanna be notified
Why don't you just speak your mind
Always saying that you're hyperfine
But I know you're not hyperfine
I just wanna be notified

Fine, we're hyperfine
I just wanna be notified
Fine, we're hyperfine
I just wanna be notified
Fine, we're hyperfine
I just wanna be notified
Fine, we're hyperfine
I just wanna be notified
Fine, we're hyperfine
I just wanna be notified
