

# Lover

G Flip

I just wanna be your lover  
You know that we ain't friends  
You know that we ain't  
Know that we ain't

My birthday, haven't heard a thing from you  
You haven't wished a single thing or two  
Don't wanna be another page in your bible  
I am your final, I am your title  
I am the one who is gonna make you feel it right  
And yeah we're falling back to old ways  
Saying shit we used to say  
Baby, you have someone that is there right by your side  
Honestly I don't know how you sleep at night  
How do you sleep at night?

I just wanna be your lover  
You know that we ain't friends  
Yeah I tried to love another  
Never made much sense  
I just wanna be your lover  
You know that we ain't friends  
You know that we ain't  
Know that we ain't

When we're all alone and the lights are low  
Gonna make you scream, gonna make you scream  
When we're all alone and the lights are low  
Gonna make you scream, gonna make you scream  
When we're all alone  
Give it to me

I just wanna be your lover  
You know that we ain't friends  
Yeah I tried to love another  
Never made much sense  
I just wanna be your lover  
You know that we ain't friends  
Yeah I tried to love another  
Never made much

We're all alone and the lights are low  
When it's you and me, yeah it's you and me  
When we're all alone and the lights are low  
When it's you and me, yeah it's you and me  
When we're all alone and the lights are low  
Gonna make you scream, gonna make you scream  
When we're all alone, all alone, alone

I just wanna be your lover  
You know that we ain't friends  
Yeah I tried to love another  
Never made much sense  
Yeah, I just wanna be your lover  
You know that we ain't friends  
You know that we ain't  
You know that we ain't
