

Not Even In Vegas

G Flip

I've got a pocket full of fun
As I dance out the door
I'm a little overdone
But I'll be coming home after dawn

And then my feet hit the floor
I guess I found an appetite
Chasing the encore
But the show finished late last night

We're not even in Vegas
Red eyes and I'm faded
Hope my cheeks see the sun everyday as I'm getting old
We're not even in Vegas
You could call me shameless
'Cause my head's out of breath for the 4th night in a row

Am I ever gonna stop?
Spent a hundred at a bar again
You know I can't keep living it up
I always say but then I start at ten

I won't be leavin' early
Even though she's wanting me to
And if today was my last day
This is all I'd wanna do

We're not even in Vegas
Red eyes and I'm faded
Hope my cheeks see the sun everyday as I'm getting old
We're not even in Vegas
You could call me shameless
'Cause my head's out of breath for the 4th night in a row

And it goes on and on and on
And it goes on and on and on
And it goes on and on and on
And it goes on and on and on

Maybe one day we'll hit Vegas
And we'll laugh because we made it
But for now
We'll say

We're not even in Vegas
Red eyes and I'm faded
Hope my cheeks see the sun everyday as I'm getting old
We're not even in Vegas
You could call me shameless
'Cause my head's out of breath for the 4th night in a row

And it goes on and on and on (Vegas)
And it goes on and on and on (Not even in Vegas)
And it goes on and on and on
And it goes on and on and on

And it goes on and on and on (Vegas)

And it goes on and on and on (Not even in Vegas)
And it goes on and on and on
And it goes on and on and on
