Scream

G Flip

I can see the sunset hit the water
I can feel the light hit through the blinds
I want you again, so I kiss your shoulder
As I pull your body over mine

Heavenly
The way you make me fall
Lie with me
I'll make you feel it all
Come with me
They'll hear it through the walls
You and me
Are totally enthralled

I'm in love with your body
Keep giving it to me
We'll scream out through the night
And when you touch me
It feels so lovely
We'll scream out through the night

Fly me to the clouds, I wanna kill the head rush
And when you draw me down, I can touch the sky

You dance around in circles in my brain
Damn, I'm feeling nervous 'cause I need another taste
Yeah, you got me buzzing with your name

I'm outside
I'm so alive
Yeah
Uhh

Heavenly
The way you make me fall
Lie with me
I'll make you feel it all
Come with me
They'll hear it through the walls
You and me
I'm totally enthralled, yeah

I'm in love with your body
Keep giving it to me
We'll scream out through the night
And when you touch me
It feels so lovely
We'll scream out through the night

I wanna put my hands all over your waist
I wanna feel your hands running through my hair
I want it now, babe, just a little taste
Let me take you there

I wanna put my hands all over your waist
I wanna feel your hands running through my hair
I want it now, babe, just a little taste

Let me take you there

I'm in love with your body
Keep giving it to me
We'll scream out through the night
And when you touch me
It feels so lovely
We'll scream out through the night
