

# That Boy

G Herbo

If I say "Green", killers go soon as I decide, uh  
Ain't no decock 'cause I shoot a nigga three times  
And we throwin' big L's, ain't no peace signs  
Catch them ones gon' kill a nigga, ain't no retryin' (808 Mafia)

I came close to homicide way too many times  
I had most of my homies die, I'm just 25  
Reason why I gotta ride with iron on my side (Every time)  
'Fore I have my mama cryin', I'ma finish mine (Brr)  
Pussy, I'm in it to win it (Win it)  
I'm breakin' records like Guinness  
I'm all in meetings with labels and my lawyer, bitch, I'm on top of my busin  
ess (Herbo)  
I'm causin' racket like tennis  
All in her mouth, dentist  
Drippin' and proud of this sauce (Bitch)  
I'm rockin' my own linen

Boy really rich (Uh)  
That boy really rich (Rich)  
Boy really rich  
That boy really rich  
Boy really rich  
That boy really rich  
That boy really rich  
Boy really rich

That boy havin' it, nigga, that boy havin' it, uh  
That boy havin' it, that boy havin' it  
Boy havin' it, uh-huh, them boys havin' it  
Boy really rich, boy havin' it, uh

2013 had 200 racks, no bap  
Should've been half a milli but I was too deep in the trenches, wasn't focus  
ed on rappin'  
I didn't know my passion, really just asked the hood, me and Cap really stay  
ed in the trap  
Slappin' that bitch, I'm winnin', no doubts  
Spring and winter, sheriffs come kick us out  
Soon as it's warm we right back on the block with Glockes  
Never been worried 'bout opps, so stop  
So many niggas got dropped for rocks  
Snitch niggas want me to rot in a box  
I just been skippin' the cops, playin' hopscotch  
Strap on my left, feelin' back, who's a top notch?  
Links on my neck like a box of Pop Rocks  
Snappin' and crackle, they doin' a lot  
Understand lil' nigga, I'm havin' guap  
This shit wasn't easy, it took me a lot  
Fans never know what it took me to drop  
Sippin', you know what it took me to stop  
I done put a deuce in every pop  
Filled up so many denims with knots  
And I don't owe nobody squat, bitch
