

# Surface

G.R.L.

You say you wanna be with me  
But I can't see the person that you see  
Brown eyes and a black heart  
Always stop before I let it start  
I'm scared you want someone I can't be  
But then you say

We're all a little flawed  
A little hard to love  
Ain't nobody perfect  
Hide our broken hearts  
Never show our cards  
Say it's cause we're hurting  
You got the past on your sleeve  
You push me away  
Afraid I'll see the pain on your skin  
Yeah we're all a little flawed  
But the best parts  
Are just underneath the surface

I can tell that you're something different  
Beneath your scars is what I've been missing  
So take your chances on me  
I wanna understand your mysteries  
So you can let your guard now  
Cause I'm here to listen  
Let's lose ourselves and we can find our way  
Let's drown together we can find the shore  
Let's fall to pieces and get up again  
Cause that's what living's for

We're all a little flawed  
A little hard to love  
Ain't nobody perfect  
Hide our broken hearts  
Never show our cards  
Say it's cause we're hurting  
You got the past on your sleeve  
You push me away  
Afraid I'll see the pain on your skin  
Yeah we're all a little flawed  
But the best parts  
Are just underneath the surface

Let's lose ourselves and we can find our way  
Let's drown together we can find the shore  
I know we can find it yeah  
Let's fall to pieces and get up again  
Cause that's what living's for  
That's what living's for  
Cause that's what living's for

We're all a little flawed  
A little hard to love  
Ain't nobody perfect  
Hide our broken hearts  
Never show our cards

Say it's cause we're hurting  
You got the past on your sleeve  
You push me away  
Afraid I'll see the pain on your skin  
Yeah we're all a little flawed  
But the best parts  
Are just underneath the surface  
Underneath the surface  
Underneath the surface
