

Trouble

Gabbie Hanna

I'm a madman
You wanna play with a maniac?
I bet you heard of me, heard of me
I'm a time bomb tickin' away all day
You wanna stand back
Or light it up with me, up with me?

Been a long time
Since I leapt without lookin'
I'm lookin', I'm lookin'
I'm lookin' for a good time
Come with me and I promise
I promise, I promise you'll see

We can fly too close to the sun, my love
We can run away to where the party never ends (Never ends)
Little girl, you better bite your tongue
I'm not makin' trouble but I'm not makin' friends (Makin' friends)

I'm a sitting duck
Take your aim, I don't give a fuck
That shit sounds fun to me, fun to me
Got a one-way ticket to hell
And well, I wish you would come with me, come with me

Been a long time
Since I leapt without lookin'
I'm lookin', I'm lookin'
I'm lookin' for a good time
Come with me and I promise
I promise, I promise you'll see

We can fly too close to the sun, my love
We can run away to where the party never ends (Never ends)
Little girl, you better bite your tongue
I'm not makin' trouble but I'm not makin' friends (Makin' friends)

We can fly too close to the sun, my love
We can run away to where the party never ends (Never ends)
Little girl, you better bite your tongue
I'm not makin' trouble but I'm not makin' friends (Makin' friends)

Oh, baby, let's be friends
Oh, I hope this never ends
I hope this never ends
