

All Of My Life

Gabby Barrett

I take things for granted, I don't let my feelings show
Sometimes all the little things that I think matter don't
Sometimes I complicate it, it's hard to talk it out
I'll try my best to say it, ain't no doubt about

The way that you're my everything
The way that I'd be lost without ya
It just don't feel like home without my arms around you
I don't always make it easy
I don't always say it right
But I promise you, I do, and I'll love you all of my life

Mm, mm

I wish I could go back and rewind those stupid fights
Instead of tryin' to win, I'll lose my pride
And look you in the eye and remind you

The way that you're my everything
The way that I'd be lost without ya
It just don't feel like home without my arms around you
I don't always make it easy
I don't always say it right
But I promise you, I do, and I'll love you all of my life

When you close your eyes and you walk out the door
Baby, I hope you know for sure

The way that you're my everything
The way that I'd be lost without ya
It just don't feel like home without my arms around you
I don't always make it easy
I don't always say it right
But I promise you, I do, and I'll love you all of my life
