

Dance Like No One's Watching

Gabby Barrett

Oh-oh-oh

I was seven years old, he was holdin' my hand
So, we walked in the gym, he could tell I was scared
Say, "You can pretend it's just you and me"
So, I closed my eyes and I stood on his feet

And he said, "Dance like no one's watchin' whatever you do
And if life gives you love, fall in, but always be you
Oh, 'cause, girl, it's a big world, and it's so easy to get lost in
So, dance like no one's watchin'."

Oh, no-no

He taped up the last box and he shut the trunk
Say, "Go have a ball. Just don't drink too much
You should be there by dark. You're an hour ahead
Let us know you got there and never forget

Oh, to dance like no one's watchin' whatever you do
And if life gives you love, fall in, but always be you
Oh, 'cause, girl, it's a big world, and it's so easy to get lost in
So, dance like no one's watchin'."

Oh-no

I can't believe that you pick this song
You can hold it together, just don't look at mom
It's just like we practiced back at the house
You those two left feet swimmin' around

Daddy, dance like no one's watchin' whatever you do
And if life gives you love, then fall in, but always be you
Oh, I know it's a big world and it's so easy to get lost in
So, dance like no one's watchin'

Ooh
