

Little Things

Gabe Bondoc

Still remember the day
Still remember the way
I'd watch the sunlight kiss your face
Wish that I could take it back to the time

I'm thinking back on it all
And now what used to be small
Is all I want, it's all I want
Wish that I could take it back to the time

You, me and coffee cups
Can't wait to see you, love
Wish we didn't have to wait so long
You, me and open road
You drive me wild, you know
Wish we didn't have to wait so long

I can't wait to hold you close
You're the one that I miss most
I can't wait to hold you close
You're the one that I miss most

Still remember the touch of your hands
Still remember - all of our plans
The words you whispered in my ear

When we get it back together
The littlest things, they'll be so much better
Ooh, can't wait for all the little things when you're here

You, me and coffee cups
Can't wait to see you, love
Wish we didn't have to wait so long
You, me and open road
You drive me wild, you know
Wish we didn't have to wait so long

You, me and coffee cups
Can't wait to see you, love
Wish we didn't have to wait so long
You, me and open road
You drive me wild, you know
Wish we didn't have to wait so long

I can't wait to hold you close
You're the one that I miss most
I can't wait to hold you close
You're the one that I miss most
I can't wait to hold you close
